/ PROFILE

I am self-taught Frontend Web & iOS Developer specializing in JavaScript and React. I have 3 years of web development experience and a life-long passion for learning the latest technologies, creating unique user experiences, and pushing commits to Github. Please let my portfolio website speak for itself: crbilladeau.github.io/portfolio

/ PORTFOLIO EXPERIENCE

>> New Horizons Companion App || 2020

- An iOS app released to the iOS Store in May 2020; made for the *Animal Crossing: New Horizons* game
- 25,000 lines of code built on the Expo SDK and written in React Native with Hooks & reusable components
- Created uniquely designed pop-out modals displaying information on game characters
- Wrote custom search filters using the lodash library to manage array filtering through lists by properties
- Developed both tab & stack navigation controls to categorize and display lists of general game information
- Implemented time-based mobile push notifications to notify users of in-game events

>> Static Electronics E-Commerce Website || 2020

- A full stack e-commerce website mock-up for a fake used electronics retailer
- Frontend built with React and NextJS for quick reloading based on component state changes
- Backend built with Apollo, Prisma database, and GraphQL to manage creating, editing, and deleting item queries and mutations
- Currently in development: User Authentication, Cart & Payment features with Stripe, Search functionality

>> Go Far Travel Agency Landing Page || 2019

- A fully responsive, single-page professional website mock-up for a fake travel agency
- Styled with the Materialize CSS framework and vanilla JavaScript to provide minimalistic, yet responsive cards and content containers
- Features smooth parallax scrolling to highlight background photos, plus animations that trigger on scroll

/ WORK EXPERIENCE

>> Content Intern || 2014

CharacTour - Chicago, IL

- Influenced the launch of an internet start-up with 350k users
- Composed and designed profiles featured on the site
- Tested website features and advocated for development shift to the website's quiz features, resulting in a 169% increase in registered users

>> Quality Assurance Tester || 2012, 2013

Activision - Eden Prairie, MN

- Tested over 15 game software titles at AAA video game company Activision for both functional and technical requirements in an agile SCRUM development cycle
- Utilized JIRA to write over 1000 issue reports on bugs found in software using formal, technical language
- Exceeded daily bug targets as top tester, promoted to new projects, and guided other team members in a leadership role
